2 INTRODUCTION

The NHS Wales Release Management Policy considers that effective Release Management is essential for protecting the integrity of the operational environment. A key objective of the release process is to ensure that users, support staff and other stakeholders are kept informed as to what is planned and how this will affect them. One of the ways that this can be achieved is through the publication of release notes prior to deployment of the Release.

These notes contain information on the agreed scope and content of Release id CMS/01-2025 for the CMS descriptions of new or modified functionality and problem fixes, descriptions of new problems and workarounds identified during the testing of this Release, training requirements, deployment instructions, references to deployment and back-out plans and key dates within the release process.

3 SERVICE MANAGEMENT BOARD (SMB)

The CMS Service Management Board has overall responsibility for ensuring that these Release Notes

accurately describe the Release and that it is kept under constant review and updated to reflect any modifications to the Release prior to its deployment.

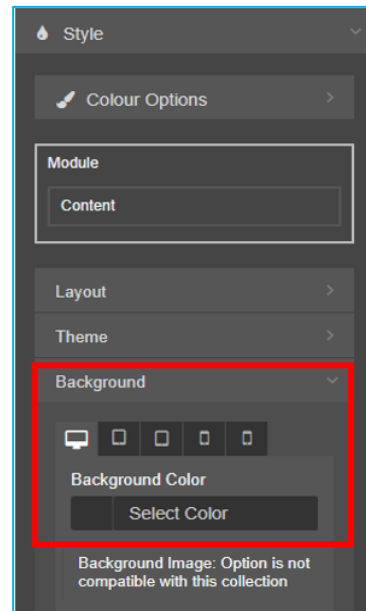

4 RELEASE NOTES REQUIREMENT

4.1 Release Identification

859 - CMS/01-2025

4.2 Description of New or Modified Functionality

Item	Description of the Change	Requestor
Bug Fixes		
<p>4.2.1 – ATL - Nested Containers</p>	<p>We have addressed an issue where repeated error messages would appear when an Advance Table List (ATL) was nested within multiple containers.</p> <p>Additionally, we have introduced a new feature in the ATL Style Tab, allowing users to customize their ATL Module Layout with a Background Color.</p> <p>See the CMS Support Site for more information on Containers</p>	<p>DHCW</p>
<p>4.2.2 ATL - Showing pages - not in Nav</p>	<p>During testing of recent updates to the Advanced Table List (ATL), we identified an issue where content items marked as 'Not to display in the Nav' were still appearing in the ATL.</p> <p>This issue has now been resolved, ensuring that the ATL behaves consistently with other list options and excludes these items as expected.</p>	<p>CMS Support Team</p>

System Updates

4.2.3 New Cookie Controller Inheritance solution

We have now introduced an improved approach for managing the site's Cookie Controller (and any attached Google Analytics) to ensure it inherits seamlessly across the entire website, regardless of inheritance breaks.

Once Cookie Control Site inheritance is enabled for the website any existing child pages will inherit the cookie from the home page cookie plugin and any new pages created will inherit the cookie automatically.

The Cookie Controller site inheritance can now be Enabled or Disabled directly within the website's site settings by logging a request with the CMS Support Team.

[See the CMS Support Site for more info on Cookie Control Inheritance](#)

CMS Support Team

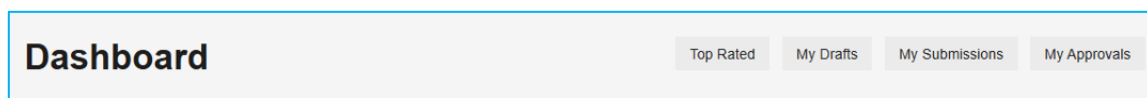

4.2.4 Dashboard - New Reports Tab/Page

To declutter the Dashboard and improve access to key data, we've introduced a dedicated 'Reports' area. This new section will allow users to easily search and view various CMS-provided reports, such as the Phrase Log; with the option to download them as Excel files.

We have now added two new Tabs to the Dashboard navigation: 'Overview' and 'Reports.'

Selecting Reports will take you to the new reports section, while Overview will return you to the Dashboard homepage.

4.2.5 New Report – Last Updated

We have now introduced a new report: ‘Content Update Audit.’ This report enables users to search their CMS content items, including Page, Page-Contact Card, Page-Accordion, and Form (with plans to support additional content types in the future).

Users can search and filter by:

- Content Type
- Month & Year
- Last Updated

The results list will display the Page Title, URL, Parent Page Title, Last Updated Date, and includes options to view or edit the selected page directly. Results are paginated and can be exported to Excel for further analysis.

Plugin & Layout Updates

4.2.6 Buttons Update - Text Size

Following feedback from the SMB, we have added new options to adjust the text size for buttons in the Buttons collection layout.

Users can now select from the following sizes:

- Extra Small = 0.875rem (equivalent to 14px)
- Small = 1.1rem (equivalent to H6)
- Medium = 1.65rem (equivalent to H4)
- Large = 2.2rem (equivalent to H2)
- Extra-large = 2.75rem (equivalent to H1)

	 <p>See the CMS Support Site for more information on Buttons</p>	
<p>4.2.7 Advanced Table List Update – Source – Reword</p>	<p>We have resolved an issue with conflicting behavior in the Advanced Table List when changing the Content Source selected.</p> <p>Previously, when switching the Content Source, this retained partial settings from the previous selection within the table’s source code, causing conflict issues with the Search functionality. This update ensures the settings are now correctly reset when the Source is changed, preventing any unintended errors.</p>	<p>CMS Support Team</p>
<p>4.2.8 Advanced Table List Update – Advanced Filters</p>	<p>An issue has been identified, where certain index settings and date filters in a Collection Index are not being honored when used alongside an Advanced Table List. This update focuses on enhancing the Advanced Filters functionality to ensure these settings are applied correctly.</p> <p>Adding Multiple Filters</p>	<p>CMS Support Team</p>

4.2.9
Advanced
Table List
Update –
Links

We have now added the content type 'Link' to the Advanced Table List (ATL). This is in addition to the existing content types available: Page, File, and Document.

4.2.10
Single
Content 2
Update –
More Link

We have addressed an issue affecting the More button on the Single Content Block 2 when viewed on a mobile device.

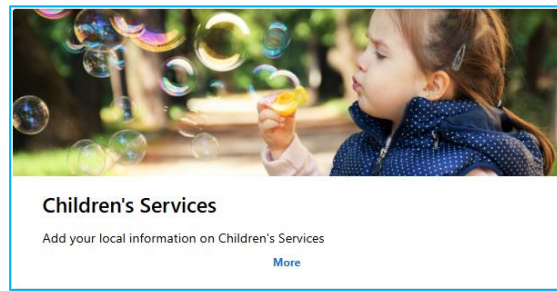

CMS
Support
Team

Previously, the button would drop off the block, disrupting the layout and usability. This update ensures the More button remains properly positioned within the block, providing consistent user experience on mobile.

4.2.11 New Layout – Video Carousel

We have now introduced a new Collection Layout – Video Carousel. This layout provides users with the ability to create a carousel of YouTube/Vimeo videos. The Videos Links can be uploaded via our new External Video Content Type and then drawn into the Video Carousel via a collection index.

Accessibility Standards

<p>4.2.12 DoS & A&E Plugin - Accessibility</p>	<p>We have now added the inbuilt accessibility checker within the style tab of the DoS and A&E Plugins.</p> <p>These markers will now be available on the Button, Button Text Colours etc.</p> <p>See the CMS Support Site for more information on the DoS</p>	<p>Button Colour (AA) i #F8F9FA</p> <p>Button Text Colour (AA) i #1B69B1</p> <p>Listing Hover Colour (AAA) i #D3D3D3</p>	<p>CMS Support Team</p>
<p>4.2.13 Accessibility</p>	<p>The Cabinet Office has completed an accessibility audit on BCUHB's website, as a result we have made the following Accessibility updates:</p>	<p>BCUHB</p>	

Audit fixes	<ol style="list-style-type: none"> 1. WCAG 1.4.3 Contrast - Links Colour - Current Links colour #1978a3 New Links Colour #145e80 2. WCAG 1.4.10 Reflow Cookie Obscuring at 400 Zoom - The Cookie Notice Triangle is no longer obscuring any text at the bottom of the web pages. 3. WCAG 1.4.13 Content on Hover or Focus - When hovering over the primary navigation dropdown menu, the menu can now be closed with the ESC key without moving the mouse. 4. WCAG 2.4.3 Focus Order 200 Search Menu - Mobile Menu, once search has been expanded, Tabbing should move you within the search fields before moving on to the Cymraeg link. 5. WCAG 2.4.7 Focus Visible 200 Zoom on Accessibility Menu - Once users have tabbed through the menu options the tab focus moves on to the page content, but the Menu does not close, so obscures this. 6. WCAG 2.4.11 Focus Not Obscured signups - Once users have tabbed through the menu options the tab focus moves on to the page content, but the Menu does not close, so obscures this. <p>Please review your accessibility statements to check they are accurate.</p>
